

## BOOT-LEGGER GETS FINE FOR SELLING LIQUOR IN E. GROVE

EDWARD BOYD'S THRIVING BUSINESS WAS SUDDENLY  
SQUELCHED BY LAW.

## DEPUTY NETTZ HEADED RAID

Boyd Was Selling Liquor In Tent On  
Rented Land—Had Only Gov-  
ernment License.

As a reminder that it does not pay to violate the law in regard to the sale of liquor Edward J. Boyd of East Grove township was fined \$30 and costs this morning by Judge John B. Crabtree in the county court. The fine was paid and the defendant informed the court that he would forsake the business.

A week ago Boyd, 22 years old, leased a space of ground on the Schaffer farm in East Grove township about two miles from the Bureau county line and pitched a tent and opened a depot for wholesaling beer, Ohio, four miles away, is dry territory and with the surrounding country Boyd thought he saw an opportunity to make some easy money in the liquor business. That such a depot had been established soon became known and business opened up good. Having a wholesaler's government license he could not sell in quantities less than five gallons and under the law the purchaser was restrained from drinking it on the premises where sold.

People began coming to the camp from all directions and soon residents of the neighborhood objected and the matter came to the attention of States Attorney Harry Edwards and Sheriff R. R. Phillips, so they decided to raid the place Sunday afternoon. Not wanting to arouse suspicion by being seen it was decided to send Deputy Sheriff Stewart Nettz and two companions. They arrived at the camp about 4 p. m. and found Boyd at the tent. Inquiry was made as to the chance of getting a couple of bottles of beer. They were refused by Boyd who replied that he could not sell less than in lots of five gallons. After some dickering it was agreed to buy a case of two dozen quarts. These were taken to the auto and it was found they could not get them all in the machine so the party asked Boyd for an opener and two bottles were drunk on the premises.

With this evidence Deputy Nettz divulged his identity and placed Boyd under arrest. It was seen that Boyd carried a revolver in his hip pocket and this was taken from him and the party came to Dixon.

The case was taken up in county court this morning. Boyd retained the services of Attorney John E. Erwin to defend him while States Attorney Edwards had charge of the prosecution. Boyd entered a plea of guilty and the court taking into consideration his age and inclination not to fight the case, imposed a small fine, as above stated.

## Laymen's Body Starts Row In Rock River Meet

Sends Out Pamphlets To 4000  
Members; Charges  
Made

Ecclesiastical tyranny is of all kinds the worst: its fruits are cowardice, idleness, ignorance and poverty. — Bancroft.

This sentence heads a pamphlet, copies of which were mailed yesterday to 4,000 members of the Methodist church in northern Illinois in anticipation of the coming Rock River conference, which opens on Wednesday at the First Methodist church of Englewood.

According to the members of the laymen's association of the church who issued the pamphlet, it is the opening gun of the bitterest fight ever waged in the Rock River conference—an attack, by the laymen, on the ministers' methods in authorizing the annuity plan of payments to retired clergymen and the collection of a \$500,000 pension fund within the Rock River district.

### What It Charges.

In terms which bristle with such phrases as "graft," "sinister influence," and "blackmail," the pamphlet charges, among other things:

That the annuity plan and the \$500,000 fund were adopted without the knowledge of the membership of the church and in the face of a widespread and generally known protest.

That at the last Rock River conference in Austin a 55 per cent increase in the compulsory assessment for pensions was voted and a secretary appointed at \$2500 a year to collect the endowment fund on the day after the laymen's association, at a meeting presided over by President Harris of Northwestern university, had passed resolutions of protest almost unanimously.

### Reports Suppressed?

That, through the ministers' influence, reports of the laymen's action were suppressed in Methodist publications and, to a certain extent, in Chicago newspapers.

That ministers who are members of the conference have openly threatened to "pack" this year's meeting of the laymen's association and have the resolutions of protest rescinded.

The pamphlet urges Methodists in the Rock River district to make sure that their delegates to the meeting of the laymen's association this year know exactly what they are facing and take such action that their hostility to the pension system and the \$500,000 endowment fund will not be further ignored.—Chicago Tribune.

Editor's Note.—The above article interests Dixon, inasmuch as Dixon is in the Rock River Conference and Rev. F. D. Stone of Dixon is prominently associated with the minister's committee on raising funds. Rev. Stone was asked for an interview on the subject by the Telegraph today, and his interview follows:

The protest referred to is a personal one, written and distributed by George E. Dickson, a lawyer of New Lenox, Ill., who has offices in Chicago. The whole question at issue is simply this, Shall Methodist preachers when forced to retire because of age or ill health receive a pension? Mr. Dickson thinks that when a preacher reaches this state in life he should be considered an object of charity, and if he absolutely cannot find elsewhere enough to keep his family that he should be cared for as an object of charity by the Methodist church. Those who oppose this idea insist that there are few opportunities in the ministry for men to lay aside a suitable income for a rainy day and that having served the church well that the church should follow the custom becoming more general and establish an old age pension.

The plan to which the writer objects is receiving wide approval, not only in the Methodist church but in other churches as well, and great national conventions to stimulate interest in the cause have been held with in the last year in Washington, D. C., and this last spring in Chicago.

The conference will undoubtedly take some action on the matter with in the first day or two of the conference session which opens tomorrow at Englewood, Chicago.

## DEKALB WAS HEAVIER TEAM

The Union Team Acquired Itself  
With Credit In Saturday's Foot-  
ball Game

The Dixon Union High school football team started off its season's schedule Saturday in a highly satisfactory manner by trimming the fast and heavy team from the DeKalb high school in a very businesslike way.

The local boys won their victory, with a score of 20 to 7, by hard, snappy work and the good old fashioned tactics of line bucking and end runs were responsible for the Dixon team's splendid score. Several stars were developed Saturday afternoon and Dixon starts out the season with all the earmarks of a winning team.

The DeKalb team was heavy and averaged five pounds to the man above the Dixon average, and several of the DeKalbites showed considerable ability, notably Cannon, the visiting quarter-back. Vaughan of Dixon displayed more real ability than any back field man on either team and his playing marks him as the best ground gainer and most spectacular player in the Dixon line-up this season. Lennox and Brooks also did more than their share in upholding the standard of playing.

## PATTERSON AGAIN IN THE TOILS

Released From Lee County Jail Fri-  
day—Must Answer Arson  
Charge.

George Patterson, released from jail last Friday after serving a 37 day sentence for carrying concealed weapons, was arrested today at Amboy by Deputy State Fire Marshal Harper on a charge of arson, accused of having knowledge of a fire discovered in the barn of Amos Fry south of Rock Falls the morning of Aug. 31 last, Patterson having at one time been employed on the farm and had feeling existing between the men. He was taken to Sterling and this afternoon confronted by Fry in the office of Chief Haddock. When accused of having knowledge of the fire he struck at Fry and inflicted a gash on his cheek.

## BOWERS VS KNAPP TUESDAY

Controversy Over Cutting Down  
Trees Again Taken Up By the  
Circuit Court.

The third week of circuit court convened this afternoon, the first case being the People vs. Illinois Central R. Co. The real complainant is Ned Tippet and it grew out of a collision with an I. C. train while riding his motorcycle on West Third street a year ago. His contention was that the train was running faster than the ordinance permitted. The case was tried in justice court and a verdict was allowed of \$100 and the railroad company appealed the case. Attorney J. E. Erwin is prosecuting and Attorney H. S. Dixon is for the railroad.

For Tuesday the case of Clayton Bowers vs. A. D. Knapp is set for trial. The case was carried over from the April term and involved the boundary line of land owned by the men. Trees growing on what the complainant contends is the boundary line were cut down by Mr. Knapp and the suit resulted. It is likely most of the day will be consumed in the hearing.

## COMMISSION SAYS TURK OUTRAGES ARE WITHOUT PARALLEL

EXTERMINATION OF ARMENIANS  
IS PROVED TO HAVE BEEN  
DELIBERATE PLOT.

## ORDERED AT CONSTANTINOPLE

American Commission Says Crimes  
Are Worst Perpetrated In  
1,000 Years.

New York, Oct. 4.—After months of investigation and the amassing of evidence from sources whose veracity and authority are not to be questioned, the committee on Armenian atrocities finds that the crimes now being perpetrated upon the Armenian people by direction of the Young Turk government in Constantinople, surpass, for horror and cruelty, anything that history has recorded during the past 1,000 years.

The committee composed of eminent American philanthropists and financiers, representing Armenia in the Turkish empire has collected a mass of statements which reveal the tremendous scope of Turkish cruelty and which picture in simple language the frightfulness of the methods employed to destroy the Armenian people. The writers of the statements are known to the committee which vouches for them and their statements. In most cases it has been necessary to conceal the names of the place from which the statement was written and even the names of the cities and towns referred to, in order that the writer or his interests may not suffer irreparable harm.

Directed from Constantinople. After supplying, in chronological order, beginning of date in 1895, statements reporting the growth of the Turkish movement against the Armenians and outlining the beginning of the systematic attempt to uproot Armenians by every conceivable means of torture and outrage and wholesale robbery and expulsion, the report of the committee takes up specific cases of terrible cruelty.

Many portions of the report are absolutely unprintable. Such shocking outrages as were only occasionally mentioned by Lord Bryce and his colleagues in their report dealing with German atrocities in Belgium occur on practically every page of the report which deals with the expulsion and the ruin of the Armenian people. And all through the terrible story runs the comment:

"This is not due to fanaticism or to popular demand but is purely arbitrary and is directed from Constantinople."

On July 16 the committee learned that the deportation of and excesses against peaceful Armenians is increasing and from harrowing reports of eye witnesses it appears that a campaign of race extermination is in progress. Protests and threats are unavailing and probably incite the Ottoman government to more drastic measures.

## Minneapolis Is Voting On Big Question Today

Northern Metropolis Largest Yet  
To Vote On Saloon  
Question

(Associated Press)

Minneapolis, Oct. 3.—Whether Minneapolis, a city of more than 325,000 inhabitants, shall retain its 400 licensed saloons will be decided at the polls tomorrow after one of the most spectacular campaigns in the history of the northwest. The election will be held in Hennepin county (Minneapolis) under the county option law passed by the last legislature without a single vote to spare, but since its enactment more than two-score of the 86 counties in the state have voted "dry." Only seven counties have voted in favor of licensed saloons.

Practically all of the saloons within the Hennepin county lines are in Minneapolis.

The campaign, which began only a few weeks ago with the filing of a petition with the county authorities demanding an election, has brought out all conceivable means of placing arguments for and against prohibition before the public.

With an apparent liberal working fund at hand, the Business Men's Educational League, which hopes to retain the saloons, has carried on a consistent campaign from its headquarters, where a large staff of clerks has been employed. It was reported that one week's payroll passed the \$20,000 mark.

The league has held meetings in school houses all over the city, in all public halls, has imported speakers from other states, has made automobile speaking tours of the city, has sent literature broadcast explaining why business will become paralyzed if saloons are voted out, and has made a house to house canvass of the residence districts in an effort to educate people as to the business value of retaining saloons.

The two factions have spent thousands of dollars in billboard advertising, some of the advertisements being comic, others quoting figures extensively, and still others driving home the most forcible arguments possible regarding the question.

Many of the campaign methods used by the "wet" faction also were employed by the prohibition forces. The fight was carried into the city churches and two Sundays ago nearly fifty speakers for the "drys" addressed as many audiences.

City officials from both "dry" and "wet" districts were speakers at many meetings held by both sides.

The campaign of the prohibition faction culminated Saturday night in a monster temperance parade, in which all churches and temperance organizations in the city were invited to participate.

Tonight both liquor interests and the prohibition advocates expressed confidence of victory.

## FRENCH ADVANCE IN NORTH STILL PUSHES GERMANS

PROGRESS STILL UNCHECKED —  
GREAT DRIVE IS STILL  
UNDERWAY.

## GREECE TO GET FRENCH AID

Preparations to Land French Soldiers  
At Saloniki Dispel All Doubt  
of Intentions.

### WAR SUMMARY.

(Associated Press)

The French armies still continue their progress north of Arras. At Paris reports pointing out the great demand for the Anglo-French loan in America the London Mail says that "It shows not only that America wants us to win the war but that America believes we shall win."

Because only 16,000 responded to serve as a defense corps to supplement the regular army, whereas one hundred and fifty thousand men were expected, Switzerland is considering the extremity of compulsory enlistment.

### French Troops Aid Greece?

The announcement of the official organ in Athens that the landing of the French troops at Saloniki is for the purpose of assisting Greece apparently disposes of all doubt as to the entrance of Greece into the European war. Rome says Gen. Hamilton, British commander at the Dardanelles, has been at Saloniki inspecting the arrangements for landing the troops.

### Bulgars Concentrate.

The concentration of the Bulgarian army of 350,000 men has begun, according to Athens dispatches, and the Sofia officials have taken control of the military affairs of Bulgaria. Dispatches say Germany is supplying the country with funds.

It is reported that several hundred thousand men and more than 1200 guns are in Italia-Hungary between Panonova, Weeskerchen and Versecz. Two-thirds of them are Germans, many from the Belgian front.

Gen. Von Mackensen, commander in chief, is said to have arrived at Temesvar, 72 miles northeast of Belgrade. Unless Bulgaria has conceded fully to the demands of Russia concerning the breaking of relations with the neutral powers by this afternoon the Russian minister at Sofia and the staff department will be withdrawn. The dispatches say that although the Bulgarian minister at Petrograd will not be expelled, no official relations will be maintained. As Russia draws a distinction between the Bulgarian people and Bulgarian government, no repressive measures will be adopted against the Bulgarians in Russia.

London, Oct. 4.—Hand-to-hand fighting that lasted throughout the night, the use of liquid fire by the Germans and asphyxiating gas bombs by the French marked the second day of the great new drive begun by the British and French in Flanders, Artois and the Champagne.

Conflicting claims come from Paris and Berlin, but both sides agree that the allies have made some progress. The French, Berlin admits, captured German trenches extending over forty meters in an attack from Neuville against hill positions near by.

### Great Battle Near Loos.

The neighborhood of Loos, whence the British are fighting night and day to advance to Lens, was the scene of a desperate battle. No report has come yet from Sir John French, but the Germans officially announce that after a struggle that resulted in enormous losses the British were repulsed and forced, for the time, to stop their attacks in the hill region.

Fighting in the air is going on over the entire front. The French airship Alsace, the greatest of all the allies' dirigibles, has been brought down by the Germans in the Rethel district and its crew captured. The Alsace was the only dirigible that had done anything worthy of note for the allies.

### Bombard Luxembourg.

French aeroplanes, Paris announces and Berlin admits, bombarded Luxembourg, capital of the duchy of that name, and did considerable damage. Berlin announces the bombardment as "an attack on the neutral city of Luxembourg," and says the airship killed two Luxembourg soldiers, a workman and a shop girl, but, since the duchy is the headquarters for the German army fighting against Verdun, the allies cannot regard it as anything but hostile territory. Allied airmen also attacked Vouziers and Laon.

By GEORGE FITCH  
Author of "At Good Old Siwash"

A collar is a small white linen irritant which has caused 50,000,000 women to make the same remark while watching their husbands dressing.

The remark is: "Well, I'm glad I'm not a man," and always comes just after a husband has torn a collar off and has addressed it in remarks that sear and burn.

Collars are compelled by the demands of style to be white and stiff, but not waterproof. These are three of the most heartless demands ever made upon the masculine sex.

It costs the men of this nation \$100,000,000 a year in laundry bills to keep their collars white. Enough time is spent each day in struggling with clean collars a little less yielding than a stove pipe, to read a medium-sized library. And every time the sun gets a good hold on a summer day it causes 40,000,000 collars to wilt like an overripe lettuce leaf.

A linen collar is so stiff in the morn-

ing that it has to be put on with jack-screws. But in the afternoon, when its owner is seven miles from his base of supplies, it melts away and lies on his shoulders, causing the world to give him the brutal ha! ha!

Once upon a time waterproof collars were invented. They could also be cleaned at home by an amateur. But the laundrymen bought up the funny papers and wrote so many jokes about celluloid collars that they passed away with the dibble cane head and the toothpick shoe.

In one hour Edison could invent an enameled steel collar with a patent catch which could be put on by a one-armed man in the dark, would stand up even when worn by a fat man to a July ball game and could be cleaned with a hose. He could invent it in an hour, but Henry Ford couldn't sell fifty of them in a year.

This is because the men who make the styles would decline to allow us to wear them.

The United States needs a larger standing army. We should enlist seven million men, arm them well and declare a war of independence against the men who make the styles. Then maybe we could get to church now and then without burning out a bearing while dressing for the occasion.

## TEUTON OFFENSIVE HALTED IN RUSSIA

### Withdrawal of Troops Tells On Von Hindenburg's Assault.

London, Oct. 4.—The speed of operations and the intensity and vigor of Field Marshal von Hindenburg's offensive in western Russia is slackening. The effect of the withdrawal of troops for the Balkan campaign and of others for the strengthening of the hard pressed Teuton armies in the west is becoming more and more noticeable.

The German commander in chief reports only insignificant progress in the encircling movement around Divinsk. Latest official advices from Petrograd claim the recapture of Postaw, on the important supply line leading from Novo Swensky to Bore switsch, half way between Wilna and Divinsk.

The German southern armies of Prince Leopold of Bavaria, and the Austro-German forces in Volhynia and along the Galician border line are reported by Berlin to have made substantial progress. Petrograd, on the other hand, in its latest official report asserts the Russians made considerable headway in Galicia.

## STORM DEAD TOTAL NEAR 500

## DIXON WINS FIRST GAME FROM DEKALB

(Continued from Page 1)

Brooks accomplished the first touchdown, in the first quarter, after the back field had driven the ball to within ten yards of the goal with a series of trick plays, one of which netted 30 yards on Vaughan's run, and line-smashing by the back field that made steady headway. The local lads were made a trifle over-confident by their first easy touchdown and gal kick and they allowed the DeKalb team to do virtually the same as they had done themselves, with the result that after a forty yard run by Cannon and steady line bucking to a point within easy reach of the goal, Cannon was sent over for a touch down and DeKalb kicked the goal.

Brooks was forced to withdraw because of an injury to a lame ankle, and George "Club" Schuler was sent in as a substitute, taking Vaughan's end. Toward the termination of the third quarter, after a series of forward passes, (which, by the way, were very neatly executed) bringing Dixon to within thirty yards of DeKalb's goal, Vaughan ran thirty yards for a touchdown. Harry Schuler, Whitcomb Root, Weiner, Wold and Brooks are also deserving of special mention for their hard consistent playing, as was in fact, every member of the team.

### Score and Lineup

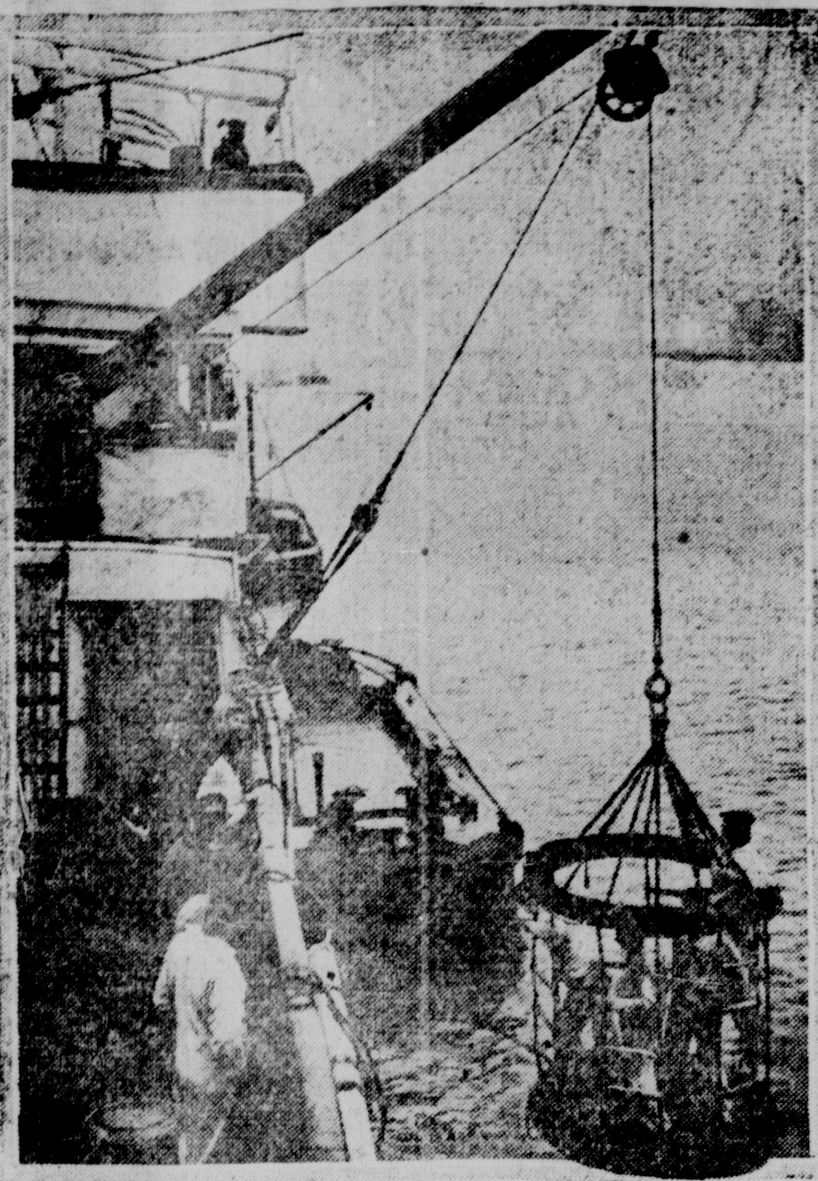

The score: Dixon touchdowns, Vaughan 2; Brooks 1. DeKalb: Cannon, 1.

Officials: Bailey, referee; Rogers, umpire.

Dixon—G. Schuler and Vaughan, re; Barge, Cahill, rt; Bartholomew, Hutchinson, rg; Root c; Whitcomb, lg; Ryncerson, lt; H. Schuler, let; Wold, lb, Vaughan, Grooks, rh; Weiner, fb; Lenox, qb.

DeKalb—Dahhberg, re; Thompson, rt; Ryan, rg; Gergusan, e; Anderson, lg; Watson, R; Bean, le; Cyline, lb; Donovan, rh; Peterson, fb; Cannon, qb.

## PICKING UP THE WOUNDED IN DARDANELLES.

The hospital ship Sierra Nevada, now in the Dardanelles, has been specially equipped to pick up the wounded from the battleships there. The men who fall into the water when they are injured may now be the

touchdown, won the box of chocolates offered by the Soda Grill.

Mil Vaughan, in making 11 points for Dixon, received the watch chain offered by George Brenner of the Palace of Sweets.

## ILLINOISAN HELD IN WISCONSIN SWINDLE

### He Tries to Cash a Worthless Check for \$20,000.

Springfield, Ill., Oct. 4.—A man believed to be W. Waldron of this city is under arrest in Madison, Wis., under the name of W. F. Abbott, following an attempt to cash a check for \$20,000, signed with the name of F. W. Hahn, a real estate dealer of Tomah, Wis.

Several days ago, after extensive correspondence, the man delivered to Hahn checks for \$23,000 and \$1,500, respectively, representing them to be a legacy left to Hahn by a Springfield relative.

Hahn hurried to this city, where he found the story of his fortune was a myth, then hastened back to Madison in time to identify the man when the latter attempted to cash a check for \$20,000 of the alleged legacy. Hahn did not deposit the check with his indorsement before investigating.

## MOTHER! YOUR CHILD IS CROSS, FEVERISH FROM CONSTIPATION

If tongue is coated, breath bad, stool ach sour, clean liver and bowels

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, bad-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

## GET INDIAN RELICS IN NEVADA CAVERN

CAVE SEALED BY NATURE OVER 3,000 YEARS AGO.

General Fremont heard of it When Crossing the Rockies—Plute Legends Record It.

The archaeological department of the University of Nevada has nearly completed the exploration of a cave in Nevada, sealed up by nature 3,000 years ago. It contains relics of what is believed to be the ancient race from which the American Indians sprang, a race far older than the Aztecs.

Among the things brought to light is the skull declared to be more than 5,000 years old certainly and possibly in existence several hundred thousand years ago. If these surmises are correct, it is older than the Pit-down skull, found in Kent, England.

Along with the skull were found many relics of a prehistoric race in a remarkable state of preservation, because they have been hermetically sealed in nature's own preservatives. Scientists all over the country have become interested in the find. The cavern, so far as it has been explored, is about 900 feet long, 400 feet wide and has a height of hundreds of feet in places. It is a magnificent tomb for a vanished race.

The first mention of this ancient civilization that is remembered by white men dates back to 1844, when General Fremont led from California a little band of whites across a new trail through the Rockies. He followed the Humboldt river until he came to the shores of what is now called Humboldt range of the mountains, and a mile south of Lovelock, Nev. In the region of the lake he entered the land of the Piute, the chief of whom was Winnemucca. The trail makers were met by the Indian chieftain with open arms.

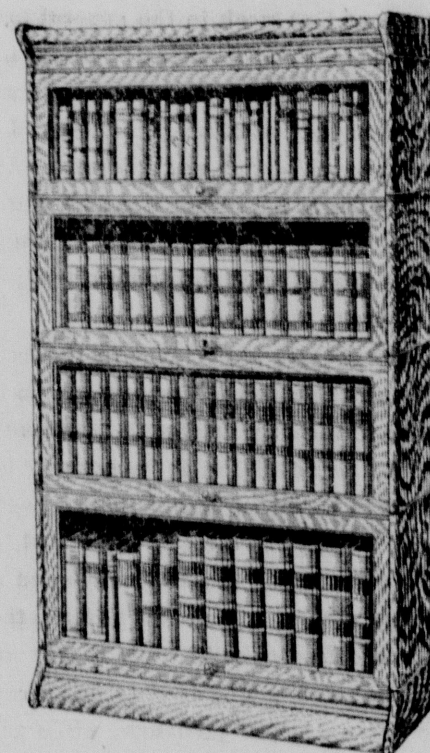

General Fremont and his party were guests of the Piute band for many days. Familiarity with other tribes had taught Fremont a method of communication by means of signs. He asked the Indian chief if he, in his great wisdom, could tell the white man whence came the red man—their origin. The aged chief by signs indicated that the history of the Indians went back to the beginning of the world. It told how his ancestors had driven a whole nation into a huge cavern and sealed them there to perish.

When years later Chief Winnemucca had learned the white man's tongue the Piute legends spread among the pioneer miners and finally reached the ears of scientific men. With the coming of education into Nevada in the last twenty-five years interest quickened with reported fossil discoveries in the beds of the extinct rivers and on the walls of canyons. At Winnemucca's death his daughter Sarah became attached to the families of army officers, and through them the legends became public when they were recounted in a book printed in 1870.

Her granddaughter, Sarah Winnemucca, was educated in a reservation school. Her imagination fired by the legends of her people, she repeated them to her instructors, until finally Prof. J. C. Jones, chief of the archaeological department of the State university, determined to make a search for the lost cave. The stories indicated that it must be somewhere near the Humboldt lake. Sarah Winnemucca picked a spot as near as the legends could guide her from which point the scientists conducted their search successfully.

### THE WHARTONS TELL ONE ON THEMSELVES

Here's a good one from the Pathe producers, Wharton, Inc., at Ithaca, N. Y. Recently in filming a "Wallford" story which dealt with high finance as applied to skunk farms, they took down the big Wharton sign over the main entrance to Renwick Park and put up one with the words "Skunk Farm" on it instead. When the pictures had been taken and the first print was being projected on the screen they were first amazed and then carried away with laughter to find they had neglected to remove a smaller sign on the foot passenger gate, directly below the skunk sign, which read as follows: "No one not a member of the cast admitted."

### "AT BAY," A PLAY WITH A HISTORY.

It is interesting to note in connection with the announcement of Pathe's intention to put George Scarborough's play "At Bay" into pictures, that Mr. Scarborough was formerly connected with the U. S. Secret Service and drew upon his experience there in writing the play. Naturally he had access to the secret records of the Service and when "Via Wireless" was running as a "legitimate" success on Broadway as well as the road, it was reported that various hidden scandals in high society had been utilized in the writing of the play.

HENRY CLEWS ON WAR LOAN.

Further expansion has been apparent this week in the general interest in the market for securities. The news of the definite closing of arrangements for the new Anglo-French credit loan has been accepted as an influence of far-reaching importance. The terms of this loan as officially announced proved to be much more inviting than had been expected, and the prospects of a satisfactory subscription have correspondingly improved. It seems quite fair to assume that, in view of the large concentration of important American banks and bankers that have become identified with the underwriting of the loan, no stone will be left unturned to make it a success.

The loan, it may be observed, is of greater importance to the national activities of our own country than in its relation to the conduct of the European war. Its main importance, as I have recently stated in these advices, lies in the fact that the export trade of America is not to be severely handicapped by a protracted period of excessive weakness in our international exchanges. While only Great Britain and France are directly interested in the negotiations, the real influence on American trade is much wider and much more important. Besides our own trade with the countries named, the demoralization in exchange rates means interference with trade that is financed through London. A very considerable amount of this class of business is still being conducted. As everybody knows, dollar exchange, while rapidly attaining world-wide popularity, is still quite in its infancy. Under most favoring circumstances it will require years to develop on an important and world-wide scale. But with restoration of our international exchange rates there will be less incentive for foreign interests to avoid the American market when purchasing their supplies of food and clothing and all other necessities. This is of great value to our agricultural sections, especially to the West, where such large crops have been successfully raised and are now for practical purposes ready for our home and foreign markets. Had the loan not been arranged there would have been very strong encouragement for foreign buyers, where they could not delay purchases, to obtain their supplies from other countries, leaving the United States last upon the list as a source of supply. This quite naturally would have been a source of depression on the prices of American grains and provisions. Beyond this it would have placed American grain products in the list of those that would be most subject to the competition of Russian wheat, which will be released in such large quantities when and if the Allied armies and navies succeed in opening the Dardanelles. There are as yet no data on which to base a definite opinion that the operations against the Straits will be promptly successful. It is quite obvious, however, that the task has been undertaken as a most serious one and that it will not by any means be lightly abandoned.

LIVING AS HE GOES ALONG.

A resident of Baltimore, a sweeper employed on the streets of the city at a weekly wage of \$12, has returned from his tenth annual trip to Europe. He is an Englishman and spends six to nine weeks every summer among the scenes of his childhood and visiting relatives and friends. Each autumn he returns to Baltimore, goes back to his little cart, broom and shovel to earn and save the money for another trip next year. Deducting time he is away he does not get more than \$500 a year, but last year he was able to lay aside \$115 for his trip.

He does not travel in state, of course, when he goes abroad, but he goes. His example is interesting mainly as illustrating how much is within reach of those who make a determined effort to get what they want. He does not hesitate because he cannot have the best stateroom on the ship. He cuts the coat according to his cloth and makes it fit, instead of frittering away what he has because it is not as much as someone else has had and does not seem enough.

The Baltimore sweeper may be looked upon as foolish by some and as a philosopher by others. His program certainly is not likely to end in a competence or even a modest sum laid by for a rainy day. But he is getting out of life more than the mere living, even if he is not accumulating wealth for a rainy day that may never arrive. He is taking life as it comes and not worrying about the future. He may be wiser than others who have an excess of foresight.

TRAINING THE CITIZEN.

After a reasonable interval of time, no young man should be admitted to the privilege of voting until his fitness has been passed upon by a competent committee. He should have some mental and ethical training in the duties and obligations of citizenship, and should accept not merely the established principle of liability to military duty, but also the obligation to be prepared to serve efficiently. The kind of training we have in mind would be valuable from every standpoint. It would not merely fit a body to be a soldier or a junior officer in a company or a regiment of citizens called to arms, but it would fit him to exercise the power and discretion of a policeman or to show the courage and skill of a fireman. It would make him understand the duties of a sanitary inspector. It would not only teach him how trenches are made in time of war but it would teach him how good roads are constructed and maintained in time of peace. It would allow him to specialize and learn many necessary modern things regarding inventions and practical use of machinery. There are a great many boys who cannot learn mathematics, physics and chemistry by way of theory or the use of textbooks. But beginning with the practical machine as a concrete thing in its construction and its use, they can be led to a very earnest study of mathematics, physics and other branches of science.—Review of Reviews.

GIVE DANIELS A GUIDE BOOK.

If Mr. Secretary Daniels should step out of his office in the state, army and navy buildings and walk along his east corridor on his own floor he could, if he would, open any one of a dozen doors leading into other offices and find at work in any of them an officer of the United States navy who knows more about the needs of the navy, and how to supply them, than the excellent Henry Ford or the excellent Thomas Edison will ever have time to learn.

But such a discovery by Mr. Secretary Daniels, surprising as it might be to him, would not make a front, not even a back page story.

## CURRENT COMMENT

A LESSON IN "PROTECTION."

Every paper that can print anything worth reading has something to say about the world's awful war.

But One of the war's greatest lessons we not remember seeing mentioned anywhere—

Germany, as a result of her almost inhuman,

Almost uncanny, Almost altogether incomprehensible efficiency,

Is making her own war supplies. All her own munitions of every sort—

Her auto trucks— Her steel supplies— Is feeding her own country.

Is making and preparing all needed chemicals and hospital supplies. And this means that,

Irrespective of the extent to which her finances may be crippled or involved, her national treasury exhausted, or her foreign exchange depreciated,

She has spent the money at home with her own people.

And they still have the gold in Germany.

With the entente powers, the situation is largely reversed. They have been sending a regular Niagara-like deluge of gold to America.

For supplies and equipment of all kinds,

Depending, to a large extent upon foreign countries.

In other words— Germany, by every means in her power, has

Concentrated, during all these years, All her energies

Upon building up her own people— Her own industries—

Her own manufacturing enterprises—

Her own commercial institutions at home and abroad—

Her own merchant marine.

Germany has in every way discouraged the building up of the wealth of foreign countries at the expense of Germany.

And has carried the doctrine of Protection

And the doctrine of encouragement to home industries

To an extreme degree

Never before attempted by a nation on earth.

While England—and to a certain extent France—has believed in the gospel of "free trade"—

Taking the opposite viewpoint— Encouraging her manufacturers

To go abroad for their purchases of all kinds—

The British government itself often buying materials abroad rather than from British manufacturers when the price of the foreign article was a shade lower.

And, now, see where they are!

We have a great many thousands of these theoretically sionary, impractical, unbusinesslike "theosophical" and "imbecilical" (a couple of new words to fit the occasion) free-traders—

Who want to follow England's plan—

Who believe in buying everything where it can be secured most cheap!

And let the theory of "America First" go hang itself in the wood shed.

Book-wise men, of course— Professors and professional preachers—

Not one of them.

The latter are the producers

And the men who have made America

And who must be depended upon to make America in the future.

While the former

Are sent to us no doubt for some good reason

Like all pestilence—grasshoppers, plagues, deluges and droughts—

To chasten us no doubt for some good cause.

Perhaps for the reason that a dog has fleas—

"Keeps him from thinking he is a dog."—Daily Iron Trade.

ILLINOIS COAL RATES STAND

Commerce Commission Denies Rearing Plea of the Railroad.

Washington, Oct. 4.—The petition of the Illinois Coal Operators' association for a rehearing of the western advance freight rate case, so far as rates on coal from Illinois mines are concerned, was denied by the interstate commerce commission. Under the recent decision, rates on coal from these mines were increased.

The order does not affect the petition of the western carriers for a rehearing in the advance freight case now before the commission.

## NO PARALLEL TO TURK OUTRAGES

Extermination of Armenians Is Proved Deliberate Plot.

ORDERED AT CONSTANTINOPLE (Continued from Page 1)

ures, as they are determined to disclaim responsibility for the absolute disregard of capitulations, and one investigator says, "I believe nothing sort of actual force, which obviously the United States is not in a position to exert, would adequately meet the situation." The text of the government's order which empowered Turkish commanders to kill, despoil and scatter the Armenians was as follows:

The Order Which Did It.

"The commanders of the army, of independent army corps and of divisions may, in case of military necessity, and in case they suspect espionage or treason, send away, either singly or in mass, the inhabitants of villages or towns and install them in other places."

## MRS. HUGH M'KAY IS CALLED TO HER REST

Dixon Woman Who Has Been Invalid Many Years Relieved by Death.

Mrs. Hugh McKay died Sunday at 3:30 p. m. at the home of her daughter, Mrs. Roy McCadie of Jackson avenue after a long and painful illness of rheumatism and other complications. Since 19 years ago in March he has been an invalid, unable to work about the house and for twelve years has been confined to her bed. The public has been very kind to her and has done much to relieve her sufferings.

Katherine Hanely was born in Ireland about 57 years ago and coming to this country when a young lady, made her home with her brother, Timothy Hanely. Later she went to Freeport and was united in marriage on July 25, 1880 to Hugh McKay. Besides her husband she leaves three children: Mrs. Roy McCadie, Hugh and Thomas McKay, all of Dixon, also three sisters and a brother, Mesdames Sylvester Gettler of Dixon, Henry Myers of Freeport, Wm. Burke of Limerick, Ireland; a brother, Timothy of Dixon, and five grandchildren.

The funeral will be held Tuesday at 9:30 a. m. from the house and at 10 o'clock from St. Patrick's church.

SESSION LAWS OUT AT LAST

Copies of the recent sessions laws as passed by the Legislature have just been received at the court house. There are 778 pages in the book and of this number 223 pages are appropriation laws. A list of the amount of money as paid to all farmers, who had stock destroyed at direction of the state veterinarian, during the hoof and mouth trouble is shown. Many of the old laws on the statute books have been changed.

## EAT BIG MEALS! NO SOUR, ACID STOMACH INDIGESTION OR GAS

"Pape's Diapepsin" is quickest, surest stomach relief known— Try it!

Try it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

AN EDUCATED MONK.

Richard the Great, "the monk who made a man of himself," appears at the Family tonight until Thursday, and will convince his audience that the species to which he belongs, at certain periods of their lifetime, are in possession of many of the faculties of man. The intelligence of the animal is not primitive, but is pronounced, and those who saw the monk at the vaudeville house marvelled at the wonderful manner in which he performed his tricks, some of which the average man would never attempt.

To see Richard dining, at first sight one might easily mistake him for a dwarf. He walks onto the stage unheralded, seats himself at a table and rings for a waiter. He eats, drinks and smokes heartily. He rides bicycles, performs feats of magic and even undresses himself, to the amusement of the audience. His ball rolling is truly remarkable, revealing the tremendous strength which his small body and limbs possess.

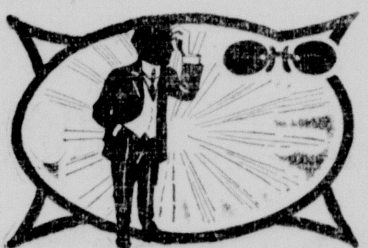

Richard, although called a monk, is really a chimpanzee. He comes from the jungles of Africa and was purchased by his owner and trainer, DeRosa, from a sailor in Boston. The monk at that time was seven months old. Patience and kindness on the part of the trainer have developed the intelligence of the animal. He is now four and a half years old. Mr. Rosa says that the chimpanzee can usually be trained until he is 12 years old, when the skull becomes so hard that it presses on the brain and, killing the faculties, leaves the animal with nothing but his brute force, which in his estimation is greater than that of a lion. Richard is now just like a child, according to Mr. Rosa, and is very fond of sweets. Although of very small stature, he can carry a four hundred pound trunk.

## Chicago Feds Win Pennant.

Chicago, Oct. 4.—Before a raving mob of 34,000 fans the Chicago Federal League baseball team landed a pennant for Chicago by beating the Pittsburgh Federal Leaguers at Weeham Park in the second game of a double header after having suffered a wild eleven-inning defeat in the first. The initial combat went the Rebels' way, 5 to 4, while the second was sawed off in the seventh inning, 3 to 0.

## Ford Answers Canadian Critics.

Toronto, Oct. 4.—Henry Ford, head of the Ford automobile industry in Detroit, has issued a statement to the Toronto Globe to the effect that while he cares neither to affirm nor deny the statement attributed to him in connection with the Anglo-French war, he stands on record as opposed to militarism and everything in connection with it, particularly preparedness.

## WHAT IS ICE CREAM?

Opinions Differ as to Constituents of the Confectioner's Art.

What, pray, is ice cream? Dietary detectives have said that it may be a combination of moistened milk powder and furniture glue, frozen and flavored, or that it may consist largely of fats worked through a homogenizer into a semblance of cream; of old cream rejuvenated or of any of a number of horrendous mixtures disguised with strong flavoring extracts and subjected to the impartial treatment of Jack Frost. The uninitiated public, from the hardened criminal to the innocent babe, knows it simply as a malleable substance of low temperature which tickles the palate so outrageously that one forgives it the cramps which follow its injudicious consumption.

There is a movement on foot to grade ice cream officially in this city and nation as milk is graded. But, obviously, if all the things said to be done in the name of ice cream are true, one might as well try to measure art with a yard stick; unless, of course, these products of the poisoner's art are to be prohibited or labeled "ice cream, second class," or "frozen muckilage, ice cream type," or "assorted fats, frappes." And then what is to become of the cone trade, from which it must be, Coney Island derives its name? For whatever may be said of the rose and its odor, ice cream by any other name, and particularly its real name, does not taste as sweet.

What, indeed, is ice cream if it is not a great big problem at the foundation of one of our cherished institutions?—New York Tribune.

## OIL IN COAL SHOVEL.

Handle is Reservoir to Supply Lubricant Readily.

A coal shovel with the handle in the form of a cylindrical reservoir for holding oil is being manufactured for factory use. At the lower end of the handle, convenient to the left hand of the user is a valve which, when pressed by the thumb, permits oil to flow into the shovel.

The oily coal ignites more quickly than it otherwise would, producing better combustion and less smoke.—Popular Mechanics.

## Dramatic Notes

## PRINCESS THEATER

Tonight the Princess theater will show a three reel American feature entitled "The Great Question," with Harold Lockwood and Mae Allison in the leading roles—a brilliant society drama in which a young couple recently married are separated and later find happiness in the far west. Harold Lockwood, who is featured in this picture, has for years been featured in the Famous Players' film Co., his acting being considered wonderful.

The other reel for the evening is: Beauty comedy entitled "Incognito" with Webster Campbell and Nev Gerder in the leading roles—an interesting story of an heiress.

## AT FAMILY THEATRE

Another excellent bill was presented at the Family theatre and was equal and as thoroughly enjoyable as the opening bill of last Thursday, and consists of the three Bartlett Bros., comedy acrobats, Pearl Fell, dancer of fancy and national dances Murray K. Hill, a monologist who has a line of talk that's new and clever, and kept his audience in a constant roar, and last but not least Richard the Great, the monkey who made a man of himself. He is a wonder and his act is a marvel in every sense of the word. The new pipe organ is one of the new features and with the excellent special pictures shown every night is most well worth the price of admission. Pictures tonight are Charlie Chaplin in two reels and Marguerite Clark in "Gretna Green."

## "THE LITTLEST REBEL"

TO PLAY AT STERLING

Glen L. Beveridge will present the celebrated war play, "The Littlest Rebel," at the Academy of Music in Sterling tomorrow evening. This play was made famous in Chicago by William and Dustin Farnum and was a wonderfully successful drama. An excellent cast will present the production.

M. E. Rice of Dixon is at Mudville Springs, at Kramer, Ind.

## PASTOR WHO FAILED AND HIS CHURCH.

Dr. Newell Dwight Hillis

Plymouth Church

Dr. Newell Dwight Hillis, pastor of Plymouth Congregational church in Brooklyn, one of the famous churches of the United States, of which Henry Ward Beecher was pastor, told his congregation the other day that he was very sorry for having ventured into business outside his regular duties as pastor. Dr. Hillis has been brought into notoriety by his statement several days ago, when he was

sued on two notes, that he had paid off the indebtedness of his nephew, who had failed. The nephew has resorted by bringing a suit for \$50,000 damages. On Sunday, Sept. 19, Dr. Hillis made a long statement to his people in which he did not mention the suit, but explained vaguely that he had had reverses in business, and had decided he would hereafter confine himself to church work.

## AMBOY RESIDENTS CALLED IN DEATH

## TWO CITIZENS OF LEE COUNTY WERE BURIED TODAY FROM AMBOY HOMES.

Two Amboy people have answered the last call. James Garrett died Friday evening and Mrs. Mary Elizabeth Anderson died Friday.

James Garrett, of Amboy, was a widower, and had resided in Amboy for a period of five years. He had a great many friends in that community who learned of his death with sadness. He has six children, two of his sons living in Amboy.

The funeral services were held this afternoon from the late home, Rev. George of Amboy officiating. Interment took place at Woodside, Lee Center.

**At Parents' Home.**  
Mrs. Elizabeth Anderson, wife of Lee Anderson of Sterling, passed away Friday at the home of her parents, Mr. and Mrs. James Lester.

Mrs. Anderson was only 34 years of age. She is survived by three daughters, aged 11, 7 and 6, her husband, two sisters, Catherine and Frances; and two brothers, John of Rochelle, and James of Amboy.

The funeral services were held this morning from St. Patrick's church, Rev. Father Cullen officiating. Interment was at St. Patrick's cemetery.

## Liner Ashore Off Spanish Coast.

London, Oct. 4.—The Nelson liner Highland Warrior, bound from London for Buenos Aires, is ashore on Cape Pich, near Coruna, Spain, according to a dispatch received by Lloyds from the Land's End wireless station. Another vessel is said to be proceeding to her assistance.

## SUBMARINE PARLEYS BEGIN

Secretary Lansing and President Confer on New German Note.

Washington, Oct. 4.—Following his receipt of a note from the German government on the submarine issue, handed him by the German ambassador in New York, Secretary Lansing has had a conference with President Wilson.

Thus after a lapse of two weeks during which Mr. Lansing has been enjoying a vacation, the submarine controversy has again been brought to the fore in Washington. Mr. Lansing arrived in the city only in the morning and it was regarded as a fact of some significance that the president desired to consult with him immediately without waiting until his regular business hours Monday.

## HUNDREDS HUNTING MOTHER

Mrs. C. R. Boyce and Baby Disappear from Sandwich, Ill., Home.

Aurora, Ill., Oct. 4.—Several hundred residents of the town of Sandwich, fifty miles west of Chicago, on the Burlington railroad, have started a systematic search for Mrs. C. R. Boyce, twenty-seven years old, wife of a foreman in the foundry of the Sandwich Manufacturing company.

She disappeared from her home after midnight on the night of Sept. 24, carrying her three-month-old son in her arms. The following morning her nightgown was found in a corn field on the outskirts of the town.

## DUNNE WEDDING INVITATIONS

Daughter of Governor Will Be Married in Springfield, Oct. 20.

Chicago, Oct. 4.—Invitations have been issued by Governor and Mrs. Dunne to the wedding of their daughter, Ellen Mary, and William Joseph Corboy, at 10:30 a. m. Wednesday, Oct. 20, in the Church of the Immaculate Conception in Springfield.

After Feb. 1 Mr. Corboy and his bride will be at home at 651 Buena avenue, Chicago.

## FOLLOW THE CROWD

## STIRRING CAREER OF "WALLINGFORD" STAR

BURR MCINTOSH, NOW PLAYING  
FILM ROLE, HAS LIVED AD-  
VENTUROUS LIFE.

### STAR ATHLETE AT COLLEGE

Journalist and Editor of Wide Repute,  
Famed Photographer and Noted Ac-  
tor Among His Many Experiences.

Actor, author, photographer, pub-  
lisher, lecturer, and coal mine mag-  
nate, here is a list of activities any  
one of which is sufficient to engage  
an ordinary man his whole life, but  
Burr McIntosh is no ordinary man.  
That's why he has been signed for  
the Wharton production of Pathe's  
"The New Adventures of J. Rufus  
Wallingford." George Randolph Ches-  
ter said Mr. McIntosh was the one  
man to play "Wallingford," and his  
advice has been followed.

Mr. McIntosh was a classmate at  
Princeton University with the Hon.  
Job Hedges, Senator Pomerene of  
Ohio, Hon. John Harlan of Chicago,  
Wm. Steward Todd, the philanthropic  
millionaire; the late "Alec" Moffat,  
and others, and he is by no means the  
least famous of that famous group.  
Look at the height and width of him  
and you will readily believe that back  
in his college days he held the 100  
yard intercollegiate championship and  
played on the varsity baseball and  
football teams.

BURR MCINTOSH

On leaving college he went back  
to his home in Pittsburgh where his  
father was president of the largest  
bituminous coal mining company in the  
country. Our college athlete at once  
jumped into both business and poli-  
tics forming the "Six Foot Republic-  
an Marching Club" of 150 men, each  
of whom was six feet or over in  
his stocking feet. Pittsburgh still  
speaks with pride of that remarkable  
organization.

Tiring of the coal business, Mr. Mc-  
Intosh left to become a journalist in  
Philadelphia, and got a job at \$10  
a week on the "Philadelphia News."  
Within five weeks he had a full page  
expose of the most notorious thieves'  
resort in the city. The proprietor of  
the dive, James Kane, was starting  
for the "News" office with a gun in  
his pocket when he ran into McIn-  
tosh's brother "Andy" and killed him  
instead.

Having sufficiently proven his versa-  
tility in business and reporting, Mr.  
McIntosh went on the stage, making  
his debut in Bartley Campbell's play  
"Paquita" at the Fourteenth Street  
Theatre. Some of the parts which he  
made famous are "Colonel Moberley"  
in "Alabama," "Jo Vernon" in "In  
Mizzoura," "Joe," the cowboy in "The  
Cowboy and the Lady"; and other  
southern character parts. His best  
work, perhaps, was as "Pudd'nhead  
Wilson" as "Senator Langdon" in  
"The Gentleman from Mississippi,"  
"Col. Watterson Blossom" in "Cor-  
della Blossom," and "Taffy" in "Tril-  
by."

The Burr McIntosh Monthly is  
everywhere admitted to have been the  
most perfect pictorial publication of  
its time, and it was Mr. McIntosh's  
own product. As a photographer he  
won the Grand Prize (1000 francs)  
in the Paris Figaro contest of art and  
beauty with a portrait of Maude Fealy.  
In 1905 he was the official photog-  
rapher of the Taft trip to the Philip-  
pines. He also secured some won-  
derful photographs in the Spanish-  
American war. His experience in  
these two trips he made into the lec-  
tures "With Secretary Taft in the  
Orient," and "The United States and  
Its Menaces," which he has given  
before hundreds of thousands of  
people.

Mr. McIntosh, as may be seen, has  
done many things and done them all  
well. It is safe to prophesy a splendid  
interpretation of "Wallingford" by  
him in this new Pathe series, espe-  
cially as in the cast with him are the  
famous Max Figman and the charming  
Lolita Robertson.

Miss Robertson, herself, has experi-  
enced many exciting happenings, al-  
though they do not compare with those  
of her co-star.

Charles Brown and Dave Newcom-  
er were business visitors Monday  
from Ashton.

## TAKE "CASCARETS" IF HEADACHY, BILIOUS AND CONSTIPATION

Best for liver and bowels, bad  
breath, bad colds, sour stomach

Get a 10-cent box.  
Sick headache, biliousness, coated  
tongue, head and nose clogged up  
with a cold—always trace this to tor-  
pid liver; delayed, fermenting food  
in the bowels or sour, gassy stomach.  
poisonous matter clogged in the  
intestines, instead of being cast out  
of the system is re-absorbed into the  
blood. When this poison reaches the  
delicate brain tissue it causes conges-  
tion and that dull, throbbing, sicken-  
ing headache.

Cascarets immediately cleanse the  
stomach remove the sour, undigested  
food and foul gases, take the excess  
bile from the liver and carry out all  
the constipated waste matter and  
poisons in the bowels.

A Cascaret tonight will surely  
straighten you out by morning. They  
work while you sleep—a 10-cent box  
from your druggist means your head  
clear, stomach sweet and your liver  
and bowels regular for months.

## STEFANSSON'S NEW LAND ONE HUNDRED MILES NORTH OF PRINCE PATRICK ISLAND.

[The new land that Stefansson has discovered is about a hundred miles to the north of Prince Patrick Island. The most southerly part of the land which he visited is considerably to the east of the most eastward extension of Prince Patrick Island. The island, as far as he saw it, seems to be nearly bisected by the one hundred and fifteenth meridian west of Greenwich. The lands nearest to it, as far as we know, are the Polynia islands, a little group to the north of Prince Patrick Island, discovered by McClintock in 1833. They appear to be about seventy-five or eighty miles from the new land. The island is over 100 miles west of the northern part of Ellef Ringnes Island, discovered by Sverdrup, but its most northern part, as far as Stefansson saw it, appears to be further north than any other land in the great Parry archipelago to the north of our continent. It probably marks the extension, thus far to the north of the comparatively shallow waters that surround the islands of the Parry archipelago—in other words, rises from the continental shelf in shallow water. The view is now generally held that all the lands of the Arctic rise from shallow water excepting a few volcanic islands. Stefansson's discovery, therefore, seems to show that in this part of the Arctic ocean the sea is comparatively shallow, though Nansen found abyssal depths in about the same latitude to the north of the New Siberian islands.]

## The Farmer and Politician

THE nation is proud of its prosper-  
ous farmers—the greatest number  
and the wealthiest ones on earth!  
But is it part of the nation's duty also  
to look after those who are "on the  
make" or who are attempting to be  
so.

There has never yet been a politi-  
cian who didn't need the votes of  
farmers to get along. It is plainly evi-  
dent, however, that the average rep-  
resentative of the people—even with  
large farming constituents—puts out  
the "I should worry" sign after he is  
elected. When one considers the large  
amount of purely farming legislation  
that has been held in check in con-  
gress and the legislatures merely be-  
cause the people's representatives have  
a well defined idea that they can hon-  
ey-fog the rural population on a lot  
of specious pleas that merely mark  
time, then it is time to ask: why.

The world has to be fed every day,  
and just now our farmers are feeding  
a greater part of the world than ever  
before. They are too important to  
neglect all the time—Laport Herald.

### War on Plant Vermin

EVERY gardener must face annoy-  
ance and be ready to stand a per-  
centage of loss from vermin and  
disease. The simplest and most effec-  
tive remedy for any kind of plant lice  
is to spray with kerosene emulsion.  
This is satisfactory with all softbod-  
ied insects, and it kills them by its  
effect through the outside of the body.

To make kerosene emulsion take  
a half-pound of any hard soap, one gal-  
lon of hot water and two gallons of  
kerosene. Dissolve the soap thor-  
oughly in hot water, after which the  
kerosene is to be added. Stir briskly  
until the whole solution has become  
white and milky, indicating the com-  
plete mixture of the soap and oil. The  
easiest way to do the stirring is to  
run the solution through a pump and  
back into the bucket or barrel. Add  
about ten gallons of water to one gal-  
lon of this stock solution and apply it  
with any small spraying outfit.

The solution is effective for plant  
lice which damage all kinds of shrubs  
and almost all vegetables.

business caller from Polo.

## WHY WOMEN SUFFER

MANY DIXON WOMEN ARE LEARNING THE CAUSE

Women often suffer, not knowing the cause. Backache, headache, dizziness, nervousness, irregular urinary passages, weakness, languor—Each a torture of itself. Together hint at weakened kidneys.

Strike at the root—get to the cause.

No other remedy more highly endorsed than Doan's Kidney Pills. Recommended by thousands—Endorsed at home.

Here's convincing testimony from a Dixon citizen.

Mrs. W. Geiger, 1218 W. Sixth St., Dixon, says: "I get a dull pain in my back, especially when I wash or sweep much. As soon as I feel one of these attacks coming on, I use Doan's Kidney Pills, which I procure at Leake Bros. Co.'s Drug Store and they never fail to remove the trouble."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Geiger had. Foster-Milburn Co., Props., Buffalo, N. Y.

## LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

**BULGARIA GIVEN RUSS ULTIMATUM**  
Czar Gives Ferdinand 24 Hours to Comply.

"BREAK WITH KAISER," ORDER

All Teuton Officers Must Be Expelled in One Day Is Bellicose Message from Petrograd—Cannot Sanction Preparations for Aggression Against Serbia.

London, Oct. 4.—The Russian Minister at Sofia has delivered a formal ultimatum to Bulgaria demanding that she break with Germany and expel all German officers in Bulgaria within twenty-four hours.

The text of the ultimatum follows: "The events which are taking place in Bulgaria at this moment give evidence of a definite decision of King Ferdinand's government to place the fate of his country in the hands of Germany."

"The presence of German and Austrian officers at the war ministry and on the staff of the army, the concentration of troops on the Serbian border and the extensive financial support accepted from our enemies by the Sofia cabinet no longer leave any doubt as to the object of the military preparations of Bulgaria."

Facts Contradict Bulgar Assurances. "The powers of the entente, who have at heart the realization of the aspiration of the Bulgarian people, have, on many occasions, warned M. Rodoslavoff that any hostile act against Serbia would be considered as directed against themselves. The assurances given by the head of the Bulgarian cabinet in reply to these warnings are contradicted by the facts."

"The representative of Russia, which is bound to Bulgaria by the imperishable memory of her liberation from the Turkish yoke, cannot sanction his present preparations for fratricidal aggression against a Slav and allied people. The Russian Minister, therefore, has received orders to leave Bulgaria with all the staffs of the legation and consulates if the Bulgarian government does not, within twenty-four hours, openly break with the enemies of the Slav cause and of Russia, and does not at once proceed to send away officers belonging to the armies of states which are at war with the powers of the entente."

Territory Offered Bulgaria by Kaiser. According to the Sofia correspondent of the Nieuwe Rotterdamse Courant the offers made to Bulgaria by the contending Diplomats were as follows:

Germany proposed that Bulgaria should bind herself in any case to undertake nothing against Turkey in exchange for which the Porte should at once cede territory west of the Maritza and Tundsh, which includes the railway to Dedegatch, and declares its readiness to regulate the frontier north of Adrianople as far as the Black Sea, whereby the district of Kirk Killisseh would revert to Bulgaria.

On her part Bulgaria was to permit all goods desired and persons provided with special passes to pass through her territory, while the three empires promised Bulgaria efficient help in obtaining the whole of Macedonia, including the so-called disputed part of Uskub and the coast region along the Aegean Sea to Struma and the desired part of Dobruja.

Offers of Entente Allies. On the other hand, the entente powers offered in their note of September 14 the cession of Macedonian territory so far as concerns the so-called undisputed zone prescribed in the Bulgarian-Serbian treaty of alliance of 1912, independent of compensations of territorial extensions which other Balkan states might obtain.

The British Minister, according to the same correspondent, communicated further in writing that until the cession of territory to be taken from Serbia it should be occupied by Italian troops, and this was verbally confirmed by the ministers of France and Italy and in slightly different form by Russia.

While the note contained nothing about the obligations to be entered into by Bulgaria, it is established, says the correspondent, that Bulgaria would be required to place its whole army immediately at the disposal of the entente powers for the capture of Constantinople from the land side. After that event Bulgaria would retain for herself Turkish territory northwest of the Midia-Mu radil line.
